## HMP/YOI Norwich

**NATIONAL FLOORING**  
Floors For Industry

### :: Installation requirements

The client required a seamless and easy to maintain floor with a secure bond to the sub floor that cannot be tampered with. A decorative finish was also necessary.

### :: Why National Flooring?

It was essential that the area was not out of use for an extended period of time, therefore the solution offered by National Flooring proved ideal. National Flooring specified and installed the Degafloor Flake system. After installation, the floor is totally cured within two hours allowing the area to be fully operational. Due to tight deadlines National Flooring were able to complete the installation efficiently and to the client's satisfaction.

National Flooring had already proved their experience in the industry after completing a number of installations in similar areas at different locations including, HMP/YOI Huntercombe, HMP Doncaster, HMP Littlehey, HMP Nottingham and HMP Gloucester.

Martin Hanson, Estates Manager at HMP Norwich commented, "Probably the most vital factor is time. If something is likely to take longer than a few days then we simply can't do it, so the faster a floor can be laid down and ready to use, the better. National Flooring did everything they claimed in their specification and service."
