

Project Reference

The Elysium Group

The Penthouse

:: Installation requirements

National Flooring were asked by Matt Rawlinson Design Ltd to install four innovative and bespoke finishes as a part of a multi-million pound refurbishment to one of London's most exclusive venues. The Penthouse Nightclub is situated at Number One Leicester Square and is a popular venue for celebrities.

:: Why National Flooring?

National Flooring worked closely with Matt Rawlinson Design Ltd to provide a flooring solution to fit the specification requirements. As a high profile venue the specification required an innovative and bespoke yet extremely durable floor. National Flooring specified the Degafloor Flake system, which allows an almost endless range of finishes. The finishes were chosen to reflect the stylish décor throughout the different areas of the club.

The project was on an extremely tight deadline and required a solution that could be installed rapidly with minimal disruption to the refurbishment.

Matt Rawlinson of MRD Ltd explained "National Flooring gave us a solution which provided the best of both worlds, the practicalities of the Degafloor flooring system meant we had a new floor installed and ready for use in two hours, but also the slick, contemporary feel to the finished meant we didn't have to compromise on style."
